FOR PRESIDENT.

JAS. G. BLAINE,
OF MAINE.

FOR VICE PRESIDENT.

JOHN A. LOGAN,
OF ILLINOIS.

Blaine, of Maine.

The Pine Tree State can be relied on for 20,000 majority in November.

Tammany is considering whether it will support Cleveland. Senator Grady made a bitter speech at a meeting of the organization Monday night, and accused Governor Cleveland with corruption.

Already a great deal of speculation is being indulged in in Washington regarding the successor of Folger. So far but one name—that of Richard Crowley, of New York—has been mentioned in connection with the vacant Cabinet position, though there is some talk of Assistant Secretary Coon being given the place by promotion.

Sheriff Emmitt has made one of the most faithful and efficient officers this county has ever had in the Sheriff's office. He has been true to the people and their interests. The people will be false to themselves if they do not retain him. Emmitt has been tried, and deserves his reelection by a large majority.

The Enterprise is "in endless mazes lost" in some of its statements relative to State affairs. Only yesterday it said: "We are paying nearly \$600,000 a year to support the State Government alone." These figures would be perfectly appalling if they were true, but they are not, nor nowhere near it. The cost of the State Government at present does not amount to \$275,000. And what is wanted is to get the cost down to about \$200,000 or \$175,000.

The Carson correspondent of the Lyon County Times is not as well informed as he might be, claiming that the publication of the Coffin divorce item was prematurely published in the JOURNAL to gratify a personal spite, and asserting that the Carson papers abstained from publishing the matter until it was brought into Court. The JOURNAL had no spite to gratify in giving publicity to the matter, nor did it say anything about it until after the complaint had been filed in the Court at Carson, the date of filing being the 30th of August.

There is not a man in Washoe county who is better qualified to represent this people in the Senate than H. L. Fish, the Republican nominee. He possesses all the requisites of a first-class legislator, and can talk as well as act. He is apt and quick, and all matters of retrenchment and reform will be his especial aim and study. The Democrats have not a man in their party in this county who can do as much and do it as well as Fish. Every Republican should take pride in advocating his claims, and every Democrat who wants Washoe creditably represented in the Legislature should make it a point to vote for Fish.

Tom Julien, the Republican nominee for County Clerk, will be the most grateful man in the world to this people if they elect him, as we have no doubt they will. In office he will prove courteous and accommodating, and will give the people an equivalent for his salary. He is thoroughly competent for the position. He has a family growing up in our midst, and is sober, industrious and honest. He has been out of luck of late years, but there never has been a time when he was not willing to do any kind of work to earn a living for himself and family. Every good man in the county ought to give Tom a lift in this fight.

HOBART VS. SHARON.

A Demand is Made Upon the ex-Senator to Surrender Control of the Chollar and Potosi Mines.

Alvinza Hayward and W. S. Hobart have been quietly at work for some time buying up the stock of the Chollar and Potosi mines, and have at last secured a sufficient amount of the stock to entitle them to the control. It is said they now own more than two-thirds of the stock in each of the mines named, which, under the laws of California, entitles them to the immediate and unconditional possession and control of the property. In view of this fact Hayward & Hobart made a demand upon Sharon several days ago for a surrender of the property, and it is said Sharon asked and was granted a week's time before giving up possession, on account of his case in Judge Sullivan's Court. It is reported that Isaac L. Regan, who has long been the Superintendent of these mines, will resign, and that Lon Hamilton is the man who is most likely to succeed him. It is not known what has induced Hobart and Hayward to buy up such a large quantity of Chollar and Potosi shares. There is a good milling proposition in the upper levels of the mines, which they may be after, but the contents of the lower levels remain a mystery. The concentration of these stocks has made them very scarce in the offices of the brokers.

Folger's Successor.

A Washington dispatch says already a great deal of speculation is being indulged in regarding the successor of Folger, but so far but one name, that of Richard Crowley, of New York, has been mentioned in connection with the vacant Cabinet position, though there is some talk of Assistant Secretary Coon being given the place by promotion. Those who talk of the promotion of Coon say that the President, having no political debts to pay and nothing to accomplish by a reorganization of his Cabinet, will be very likely to seize this opportunity to crown his administration by the unparalleled example of civil service reform in the promotion of a subordinate official who has shown a capacity to perform the duties of the office. If the President should decide to fill the office by promotion, which none but a few civil service reformers think likely, Assistant Secretary French would be as likely to receive the appointment as Coon. It is said, however, that the President is not particularly friendly to French, and that Coon having filled the office so satisfactorily during Folger's absence it would be to his advantage. The general impression among officials and politicians is that Arthur will select for the place some gentleman of ability, perhaps some personal friend from New York, who will be willing to accept the Treasury portfolio for six months, mostly for the honor in it. The general belief is that very few politicians would care about accepting the place, knowing the term of office would certainly end next March. It is not thought likely that the President will be in any hurry in making the appointment. Assistant Secretary Coon will continue to act as Secretary, and if no appointment is made by the end of ten days he can be designated to act for ten days longer.

Sherman and Foster.

The New York Times says that John Sherman and Foster have had a meeting in Cleveland and agreed, for the time being, to drop all past differences on an agreement that if Blaine is elected Sherman is to insist that Foster shall be made Postmaster-General. With this treaty duly signed and sealed, Foster has agreed to quit sulking and furnish the sinews of war to the Republican Committee. Foster is to go at once to New York.

Negligence.

The Lyon County Times asks: Why the Supreme Court is so dilatory in rendering a decision in the matter of the Act passed by the last Legislature segregating Mason and Smith's Valleys from Esmeralda and attaching them to Lyon, is a question much mooted over by the residents of both counties interested. The case was taken under advisement about the first of April, and so few decisions have been rendered of late that the delay can hardly be accounted for by press of business.

DOUGLAS COUNTY.

A Section of Nevada that Has a Variety of Resources.

The Virginia Chronicle says Douglas county is an agricultural, mining and lumbering region. It is estimated that there are 50,000 acres of tillable land in the county, adapted to a great variety of vegetation, and owing to the fertility of the soil, a considerable surplus is transported to other portions of the State. The wood, lumber and stock interests are receiving considerable attention, and a great many citizens are reaping rich harvests from these sources. The Carson river which flows through the central portion of the county, irrigates as well as drains the soil, and carries off the impurities and debris. It also affords advantages for transportation. At Empire the wood is taken on the cars and carried to Gold Hill and Virginia. The mining interests of the county should not be overlooked. The Sierras on the west and the Pine Nut District on the east contain vast mineral wealth. The recent strike made in the Golden Belt mine, shows that the district contains some rich deposits.

Frank Leslie's Sunday Magazine.

This most interesting publication is conducted with liberality, enterprise and talent; in fact, the name of the editor, T. De Witt Talmage, D. D., is a voucher for its excellence. The October number is filled with contributions in prose and poetry by some of the most popular writers, and the illustrations are numerous and meritorious. Among the contents are articles by Rev. Geo. T. Rider, Mrs. Robbins, A. E. Alexander, Hervey, J. Alox, Patten, etc.; sermons by the Editor and D. L. Moody; poems by Mrs. T. K. Hervey, Longfellow, Madeline S. Bridges, etc.; and serial short stories, sketches and essays replete interests. "A Trip Through South Holland," "Historical Attractions of Inwood," "Titian's Religious Paintings," "Children of all Nations," etc., will well repay the reader; indeed, the pages teem with interest, entertainment and instruction. The Magazine should find its way into every family circle. A single copy is 25 cents, or \$2 50 a year postpaid. Mrs. Frank Leslie, Publisher, 53, 55 and 57 Park Place, N. Y.

Conkling Won't Support Blaine.

The New York Times says there is good authority for stating that overtures have been made to Roscoe Conkling by intimate friends of Blaine, acting with his knowledge, to take a hand in the contest in New York. Two or three speeches is all that was asked of him. The original plan provided for a grand ratification meeting in New York shortly after the Maine election, and Blaine, flushed with a glorious victory in the Pine-tree State, was to be present, and Conkling was to be the principal orator; Conkling's reward to be the next New York Senatorship. The proposition, however, was declined.

Increase of the Male Sex in the United States.

One of the curious facts brought out by the census of 1880 was the increasing ratio of males to females in the United States as a whole. In 1870 the native females were in excess of the males to the number of 17,598; in 1880 the native males exceeded the native females 300,668. In the same period the excess of foreign-born males had increased from 446,667 to 581,189. This means that among the foreign-born population there were in 1870 117 males to 100 females, and in 1880 slightly more than 119 males to 100 females; while whereas in 1870 there were in the country more than 1,001 native-born females for 1,000 males, there were in 1880 about 1,014 males to every 1,000 females. The chart published by the Bureau of Education brings this out fully, showing that not only did the excess of females over males increase during the decade in those States in which males are in excess, but that in most of those States which have a preponderance of females the difference in numbers was diminishing during the same period by the increase of the males. Thus the excess of white females over white males diminished in North Carolina from 27,000 to 17,000; in South Carolina from 8,000 to 6,000; in Georgia from 17,000 to 9,000; and in Alabama from 11,000 to 7,000. Tennessee converted during the decade an excess of 3,000 females into one of 4,000 males. Some of the States and Territories which most largely increased their excess of white males were Colorado, 10,000 to 63,000; Texas, 29,000 to 84,000; Dakota, 4,000 to 20,000; Kansas, 40,000 to 76,000; Nebraska, 18,000 to 46,000; and Arizona, 4,000 to 14,000. Utah, spite of Mormonism, has an increasing excess of males, a factor which, if it continues, will in time put a practical end to polygamy. In Pennsylvania the excess of white females over white males has increased, as it has also in New York, Connecticut, Massachusetts, Rhode Island and New Jersey.

The emigration East by emigrant train, over the Central Pacific Railroad, exceeds that going West by the same route. This is an unusual circumstance, as there are generally more emigrants going West than East.

HALL'S VEGETABLE SICILIAN Hair Renewer.

Seldom does a popular remedy win such a strong hold upon the public confidence as has HALL'S HAIR RENEWER. The cases in which it has accomplished a complete restoration of color to the hair, and vigorous health to the scalp, are innumerable.

Old people like it for its wonderful power to restore to their whitening locks their original color and beauty. Middle-aged people like it because it prevents them from getting bald, keeps dandruff away, and makes the hair grow thick and strong. Young ladies like it as a dressing because it gives the hair a beautiful glossy lustre, and enables them to dress it in whatever form they wish. Thus it is the favorite of all, and it has become so simply because it disappoints no one.

The Effie Elsler Co.

Morris Peyser, assistant treasurer of the Baldwin theater, San Francisco, arrived in Reno yesterday morning as advance agent for the Effie Elsler Co., and made arrangements for the appearance of this most excellent dramatic combination to give an entertainment at the Nevada Theater Wednesday evening, September 17th. Mr. Peyser is one of the squarest men in the business, and his connection with the Elsler company is a sufficient guarantee that the performance will be a good one.

A Vegetable Curiosity.

One of the greatest vegetable curiosities in existence is on exhibition at Thyes & Co's saloon. It is a potato vine filled with well developed potatoes, which grew out of the ground in the open air like tomatoes. They differ from the tubers which grow under ground, according to established rule, by bearing a slight green tinge. The probabilities are they would not make very healthy food.

Backboard vs. Railroad.

Daily trains are now running over the E. & P. Railroad between Eureka and Palisade. During the Spring and Summer when the road was running but three trains a week the Postoffice Department let a contract for a daily mail by backboard, and the backboard regime is still in vogue. An effort is being made, however, to compromise the matter and have the mail carried by rail.

California.

Yesterday was the 34th anniversary of the admission of California into the Union. There are several people in Reno who were in San Francisco the day the news arrived. Dick Kelly was a newsboy at that time, and received 1500 copies of the New York Herald and Tribune on the steamer that brought the news, and before night sold every copy at a dollar apiece.

Camp Meeting.

The Methodists have decided to hold an old fashioned camp meeting in Sierra Valley, commencing September 17th. The place selected is Meekins, grove near Loyalton. Rev. G. W. De La Matyr, Superintendent of the Nevada Mission, is the moving spirit and will have entire charge of the meeting.

The little one-year-old child of James Evans died in Long Valley Monday. Mrs. Bowman went out yesterday to attend the funeral. Undertaker Sanders sent out a neat casket.

The Swing Train.

The Truckee Republican says it's awful hard for a man that is not a railroad man, to fully comprehend all the terms of railroad parlance, but as near as an ordinary mortal can understand, the swing train about to be inaugurated between Truckee and Reno, is a train that shall do the work of the regular trains. That is to say, at each station there is more or less switching and shifting of cars that engines of the regular trains have had to do. The swing train will run daily between Truckee and Reno, leaving Reno at an early hour in the morning and returning at night. It will take charge of all local cars between the two points, thus saving the regulars a large amount of work and enabling them to make better time. Charlie Garcia will have charge of the engine, and will make his home in Reno.

A Difference in Judgment.

The Appraisers appointed by the District Judge, consisting of A. A. Lougley, H. L. Fish and C. W. Jones, to ascertain the value of the property belonging to the Lake estate, made a report in which the value of the property is placed at \$184,000. On the assessment roll the same property is valued for the purposes of taxation, at \$65,840; about one-third the value placed upon it by the appraisers. This shows a wide difference in the judgment of men. If the property is worth \$184,000 for the purpose of sale, a disinterested spectator would conclude that it ought to be worth at least half that amount for the purpose of taxation.

Sarah Winnemucca's lecture at the theater Monday evening drew a good house. She gave an interesting history of her travels in the East and of the people she met and the wonders she saw, and by way of spice, gave an occasional sarcastic blow to Christian missionaries and Indian agents. Her lecture was very entertaining.

Jas. H. Kinkead has retired from the Gazette. He will go back to Pyramid to superintend operations at the mine.

THE PLATFORM

OF THE REPUBLICAN PARTY

OF THE STATE OF NEVADA,
Adopted at the State Convention
Held at Virginia City on
April 30, 1884.

The Republican party of Nevada, in convention assembled, reaffirm their devotion to the principles of the great National Republican party, and reiterate its faith in its ability to carry on the General Government in the same spirit of justice, intelligence and progress, respect for human rights and regard for the interests and dignity of labor which have characterized its history for more than a quarter of a century.

Resolved, That the wise, considerate and judicious administration of President Arthur commends itself to the entire confidence and respect of the American people.

Resolved, That the Republican party has at all times been, and still is, the friend and protector of labor, and as such considers the advent of the Chinese race into this country dangerous and inimical to the deserved success and prosperity of American laborers, and still pledges itself to advocate and favor such a line of policy as will protect and foster the interests of labor, and while the recent law of Congress restricting the immigration of the Chinese has approved itself to the people, we demand that it be supplemented by such further legislation as may not only be necessary to attain the object in view, but also prohibit the wholesale importation of persons on contract of labor from any country.

Resolved, That in view of the increased prosperity of the people at large in a great degree consequent upon the wise and settled policy of the Government, we deem it impolitic at present to attempt any change in the revenue and tariff laws now in force.

Resolved, That the reduction in duties on imported wools, made by the Act of Congress in March, 1883, resulted in paralyzing the business of wool growing in the United States and in transferring the same to foreign nations, and we demand the restoration of the wool tariff of 1867 at the earliest possible moment.

Resolved, That gold and silver have co-existed and formed the monetary circulation of the world since the origin of human society, and that the agitation against silver threatening to destroy its value and use as money is a blunder and a crime, which can only result in a destruction of values without any compensation, doubling the purchasing power of gold for the exclusive benefit of the interest bearing capital of the country at the expense of bread winners, diminishing their wages and injuring the producing and taxpaying classes. We declare that silver being a product of our labor and capital as well as gold, its demonetization is unnecessary, unwise, unjust, and pernicious, and that the present law ordaining the coinage of silver as a full legal tender should be left undisturbed.

Resolved, That we demand of Congress the exercise of all its constitutional power for the speedy suppression of polygamy in the Territory of Utah.

Resolved, That we demand that every citizen shall be protected in his constitutional right to cast a free ballot and have it honestly counted.

Resolved, That we approve of all legislation which tends to promote fidelity and efficiency in the civil service of the country.

Resolved, That we renew our demand for the establishment by the General Government of a postal telegraph service.

Resolved, That the great act by the Republican party of the emancipation of the people of African descent, a people held for a century in the bondage of slavery and ignorance, has imposed a solemn obligation upon the National Government to aid in the cost of educating the freedmen and their children so that they shall become fit to discharge the duties of American citizenship.

Resolved, That monopolies oppressing the people, or unfairly discriminating against them, are wrong in principle and should not be tolerated. To that end we regard with favor the proposed enactment of a law by Congress establishing a National Railroad Commission to investigate the oppressions of railroad corporations, or other legislative action having for its object the relief of the people.

Resolved, That the public domain is the heritage of the American people, and we are in favor of the enactment of such laws as will forbid the alienation of the soil by foreign corporations and foreign landlords.

Resolved, That in the opinion of this Convention the success of the Republican party should be secured by the nomination of James G. Blaine for President, yet, without instructing the delegates this day appointed, and posing full confidence in their integrity and wisdom, we place on record our firm conviction that they will meet the unanimous sentiment of the Republican party of this State if they support the candidature of Mr. Blaine in the National Republican Convention, and we hereby pledge the Republican party of Nevada to support the nominee of that Convention.

REPUBLICAN PLATFORM!

Adopted at the State Convention
Held in Carson, September
4th, 1884.

The Republican party of Nevada, in convention assembled, deems it unnecessary at this time to supplement its platform of principles, adopted at the convention held at Virginia City, April 30, by adding anything further upon questions of national concern. It renews its adherence to the principles embodied in that platform, and to-day, fully confident of the success of the Republican party of the Nation in the coming Presidential election, congratulates the Republican voters of the State upon the selection by the Chicago Convention of their choice for standard bearer, that dauntless and resolute patriot and statesman, James G. Blaine, with General John A. Logan as his associate on the ticket. It adopts as an intelligible creed of political principles the platform of the last National National Convention, the triumph of which principles it believes will insure a renewed era of national progress and prosperity.

In the political campaign which has to be fought out in the State of Nevada the Republican party believes it can render no higher service to the people than by calling their attention to the imperative necessity which is upon them to demand and secure reformation in every department of the State Government. It therefore declares:

First—That the Republican party of Nevada, when it says reform, means it, and that, disgusted with the vague and idle promises by which, year after year, the intelligence of voters has been insulted, their credulity overtaxed, and their long-suffering patience abused, it declares that it is in favor of, and will seek to carry into effect by legislative enactment the following specific measures of reform and any others that may be developed as salutary:

The reduction of the number of members of the Legislature, and the number of officers and employees of both houses thereof.

Second—It is a well known and universally conceded fact that the existing high rates of State and county taxation now levied and collected are burdensome and oppressive on the people of the State, and thereby tend to discourage immigration and the introduction and investment of capital; therefore, be it

Resolved, That it is the imperative duty of our next Legislature to devote its early and constant attention to reform legislation that such laws may be passed as will bring about a marked reduction in the present expense of running our State and county governments, and by a reduction of the number of existing judicial districts, consolidation of county government, State and county offices and reduction of salaries of not less than thirty per cent.

Third—That we are in favor of amending the State Constitution, and pledge the Republican party to that method of constitutional reform, so as to limit the regular sessions of the Legislature to forty instead of sixty days, as at present.

Fourth—That in view of the fact that necessary constitutional reform can be accomplished by amendments to the State Constitution as speedily and effectively as by a revision of that instrument by a Constitutional Convention—a doubtful experiment under the most favorable circumstances—we hereby recommend the voters of the State to vote at the next general election against calling a Constitutional Convention.

Resolved, That in the mining, manufacturing, agricultural and grazing interests of this State lie the elements of life and prosperity. We therefore pledge the Republican party of this State to legislation tending to the fostering and advancement of these interests.

Resolved, That we with pride point to the administration of President Arthur as a model for the future conduct of this Republic, and we congratulate the Nation upon the eminently successful service rendered by him as President of these United States.

Resolved, That as citizens of the State of Nevada we are proud of the record made by Senator J. P. Jones in the halls of the National Legislature, and as Republicans we congratulate ourselves and our party in having a man at the head of the party in this State whose private life is irreproachable, whose public life is stainless, whose ability is universally recognized, and whose position among the leaders of the Republican party in the Nation and in the Senate of the United States is such as to give any resident of Nevada just cause for pride.
